A little guide for grown-ups

Choose a page together. Keep learning playful.

Begin together

Read the prompt aloud. Show one example, then let your child have a go. Saying an answer or pointing is useful practice too.

Choose the next step

Start dots and arrows show one way to form each letter. Begin with finger tracing, then try a pencil or crayon. Independent writing is optional.

Keep it comfortable

Use a short session and follow your child's interest. Take a break when it stops being enjoyable. The pages are choices, not a test.

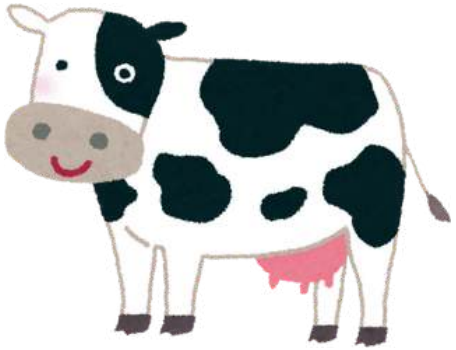

Take learning off the page

Find shapes nearby, count toys, name colours, or make up a story about an animal. An adult can write down a child's ideas.

This book supports letter recognition, pencil practice, counting, shapes, colours and visual matching. Ox is an ending-x example.

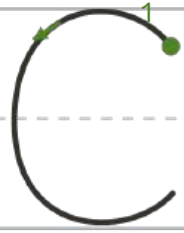

Cc / cow

Name the letter. Say the word.
Trace the letters. Then write your own.

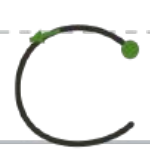

cow

Trace

Your turn

Trace

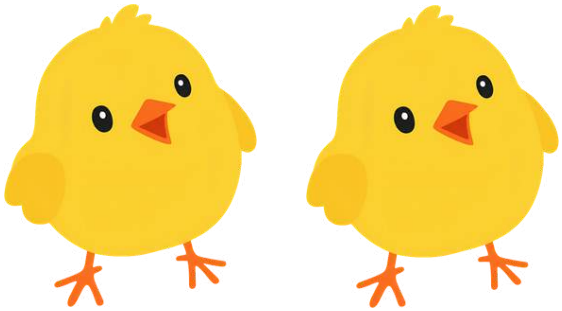

Your turn

Count the chicks

Count the objects in each group.
Write the missing numbers.

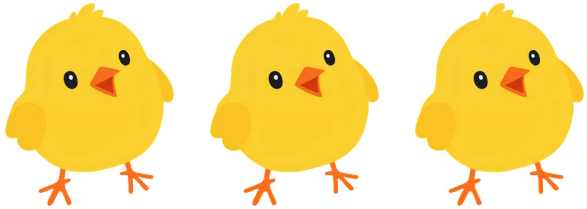

Try together

Circle shapes around us

Look at the pictures. Find an outline like our shape.
Trace the small shape under each picture.

coin

ball

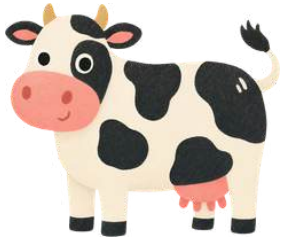

wheel

Match the pictures

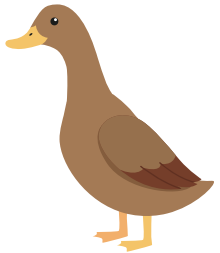

Draw a line to join each matching pair.

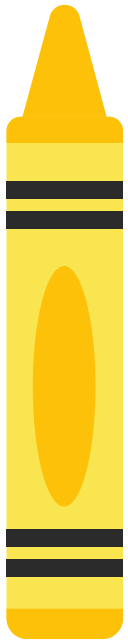

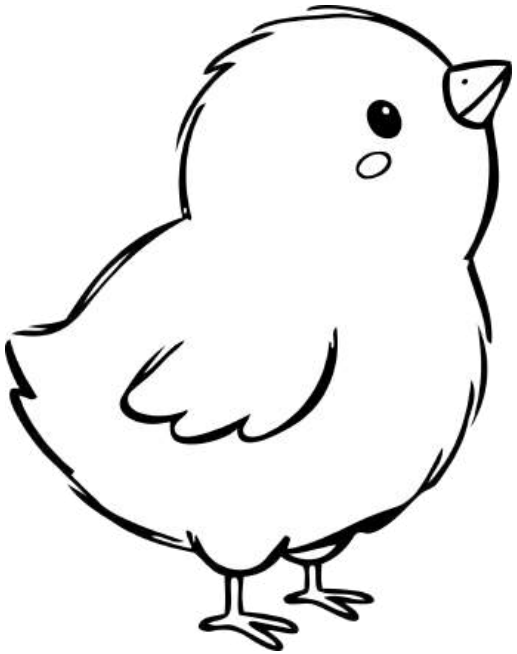

Yellow

Use yellow to colour these pictures.
Choose colours for the small details.
